World	The world is where we all live it looks like a huge ball in space.
Amazon Rainforest	A type of forest in the amazon it is called a rainforest because it rains a lot each year making lots of plants grow.

How can I understand the world and my place in it?

We have up to now considered how the history we have studied fits into a chronological framework. We are now going to consider how we fit into that framework, figuring out our own surroundings and connections to our community and the wider world. We will be studying the features of our school and the surrounding area comparing this with that of a Peru contrasting our school forest with the Amazon rainforest.

Human geography

Physical geography
