Hello Year 2

I have again been so impressed with the work from this week. You are all doing so well in such different circumstances.

My week

At the end of the day I have enjoyed reading my book outside. I have finished this one.

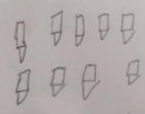

Work to celebrate

Little Truffle has been poorly with an eye infection so we have been going to the vets to get medicine.

One day there was a princess called princess Boo. She had long hair. It was her 16th birthday! King Hug who loved to hug and Queen Mum who is really kind decided they needed to have a party for princess Boo.

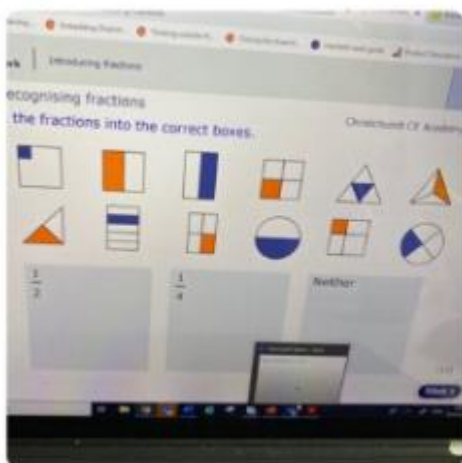

Bethan's story about a princess was beautifully written and presented.

2 multiplied by 6 = 12
2. there are 10 wheels on five bicycles. we need 7 bicycles to get 14 wheels.
3.  three are 12 dolls all together. $4 \times 3 = 12$
4.  10 pencils
 $5 \times 2 = 10$
 $2 \times 5 = 10$
5.  there are 20 petals altogether
 $5 \times 4 = 20$
 $7 \times 5 = 35$

Anesu did some brilliant maths with some wonderful working out.

Alfie wrote and performed his story inspired by the Piper film.

Rayyan finished all his MyMaths so decided to start practicing some extra work on fractions.

Charlotte practiced her weaving which looked very fun!
