September 2021 Reopening of Schools Risk Assessment

			<p>assessment and improvements to improve fresh air flow in these areas has been actioned.</p> <p>Mechanical ventilation systems have been adjusted to increase the ventilation rate wherever possible and checked to confirm that normal operation meets current guidance and that only fresh outside air is circulated. The systems have been adjusted to full fresh air or, if this was not possible, then systems will be operated as normal as long as they are within a single room and supplemented by an outdoor air supply.</p> <p>We will balance the need for increased ventilation while maintaining a comfortable temperature.</p> <p>Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19</p> <p>All pupils, staff and other adults should follow public health advice on when to self-isolate and what to do.</p>					<p>contact of a positive COVID-19 case.</p> <p>Instead, students who are contacted by NHS Test and Trace and informed they have been in close contact with a positive case will be advised to take a PCR test. We would encourage all individuals to take a PCR test if advised to do so.</p> <p>Staff students and visitors will be allowed to wear face coverings in crowded areas (non-teaching) to address any concerns they may have. Should case rates rise or in accordance with any updated guidance from (local) PHE officers, face covering use may be extended into classroom use.</p> <p>Individuals will need to self-isolate if contacted by Test and Trace as a close</p>	14/12/21
--	--	--	--	--	--	--	--	--	----------

September 2021 Reopening of Schools Risk Assessment

			<p>They should not come into school if they have symptoms, have had a positive test result or other reasons requiring them to stay at home due to the risk of them passing on COVID-19 (for example, they are required to quarantine).</p> <p>If a student becomes unwell with symptoms of coronavirus while in the school setting and needs direct personal care until they can return home, a face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then gloves, an apron and a face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.</p> <p>Provide tests to student or</p>					<p>contact if not fully vaccinated.</p> <p>All adults who are fully vaccinated and children aged 5 to 18 years and 6 months, identified as a contact of someone with COVID-19 – whether Omicron or not – should take a lateral flow device (LFD) test every day for 7 days instead of self-isolating. Test kits can be obtained through school for all staff <u>and secondary aged pupils</u> or through local pharmacists and can be ordered online. We would encourage all individuals to take a PCR test if advised to do so.</p>
